Did you know?

Read these interesting facts about machines with a parent, carer or teacher.

A machine is a man-made device.

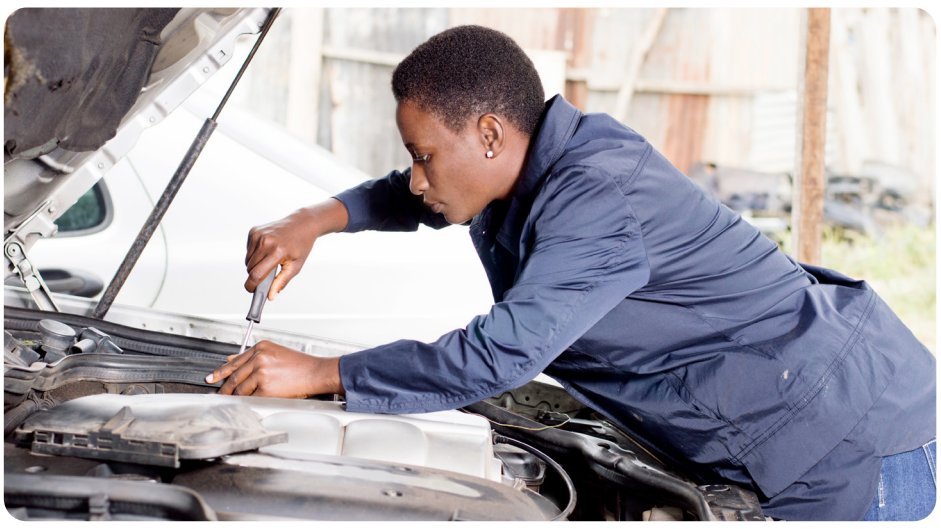

Machines need electric power to make them move or work.

Batteries power some devices, such as torches and toys. A battery is a store of electric power.

Vehicles, such as aeroplanes, cars, buses, lorries, boats, helicopters and diggers, are machines that transport people or goods.

A mechanic is a skilled worker who repairs and maintains vehicle engines and other machinery.

A robot is a machine that does a task. They only do the tasks for which they have been built.
