Did you know?

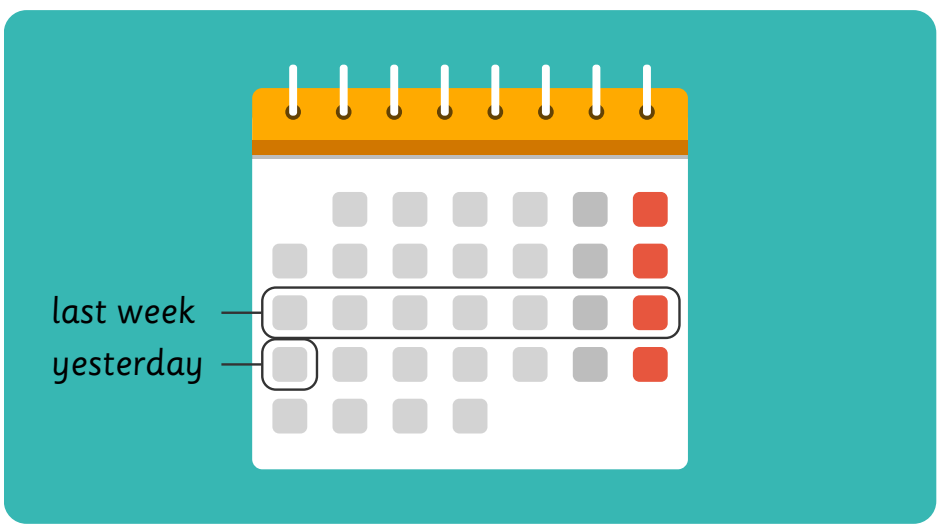

Read these interesting facts about the past and changes over time with a parent, carer or teacher.

The past is made of events that have already happened.

Memories are things we remember from the past.

We use words to describe the passing of time, like yesterday, last week, last year and long ago.

Everyday objects, like clothes, vehicles and toys, tell us about the past. They also change over time.

People grow from being babies to adults. As people grow older, they look different and can do different things.

All families are unique. They can be of different sizes and have different values, beliefs and traditions. Our families give us our heritage.
