Did you know?

Read these interesting facts about animals with a parent, carer or teacher.

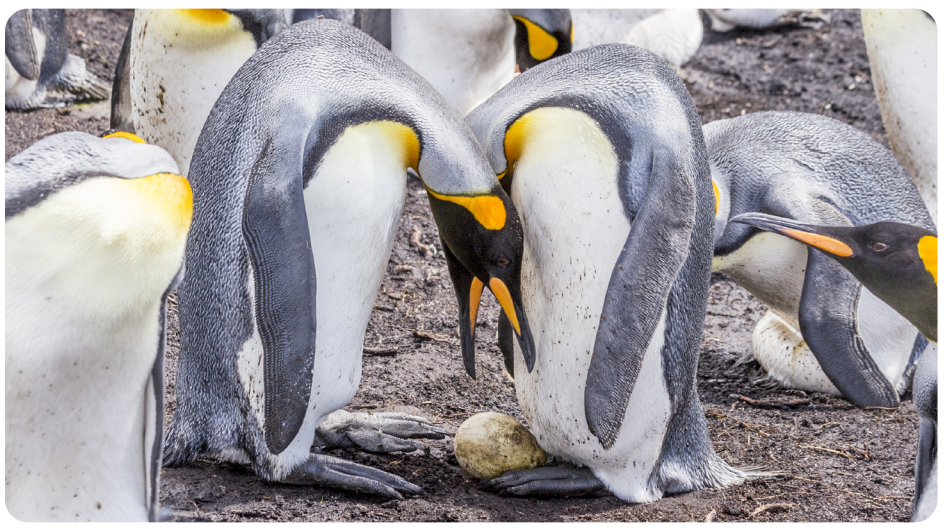

Carnivores eat other animals. Herbivores eat plants. Omnivores eat plants and other animals.

Mammals are animals that breathe air, have warm blood and give birth to live babies.

Reptiles are animals that breathe air, have dry, scaly skin and lay eggs.

Birds are animals that breathe air, have beaks and feathers and lay eggs.

A habitat is a natural home for plants and animals. Animals need food, water and shelter to survive in their habitat.

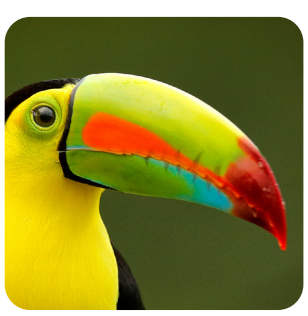

Camouflage is an animal's natural colouring or pattern that helps it blend in with its surroundings.
